What type of presentations would you like to see at future breakfast meeting?

- More about injury prevention (WCB), incident reports (near misses, accidents), how to keep/get core certified
- I would like to see another business that's been core certified to see the differences between both
- To hear from other companies that have joined MSA and their struggles/achievements/successes they have made/overcome
- Similar real world experiences with results information. Thought provoking data about how improved workplace safety. Industry leading tips. Facts with tangible ROI.
- More sharing of success stories from industry to inspire /motivate others
- This type of meeting is very good. I like the hands on aspect and the results seen. More of this would be good.
- I would like to have WCB educate us more on premiums and how they can affect a company if there is a lost time claim, etc.
- More initiatives taken on by larger companies and how they roll out their programs
- SGI – DOT for potential presentations and speakers
- What you've been doing so far has been great. More "real life" stories are always welcome.
- More information on how we can improve on safety within the workplace; info on how to raise our standards or get a higher certification not just in our business but throughout Saskatchewan.
- More service related speakers
- WCB
- I enjoyed Bobby's story. Its first-hand account of what needs to be done in all industries. A business owner that wants to make his business safe for employees and customers

- WCB rep presentation
- Similar examples from within the industry or perhaps an example from outside our industry
- Presentation like today was excellent. Would like to hear from the Saskatchewan government and their perspective in getting companies moving toward core and Mission:Zero
- Successful presentation. Help to encourage continued efforts in our business
- I like the real life Q & A, leaders in the community sharing their stories.

Comments

- These meetings/discussions are great; would be great to have more in the year. Lear a lot about more by taking the time with the group
- I like the fact that you brought a local man and company in to speak about a great program
- Enjoyed this format that was today.
- Very interesting story. Thanks for the invitation
